#### DETAILED ACTION

1. Claims 159-220 are pending.
2. Claims 159-220 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a composition for inducing immune response, does not reasonably provide enablement for vaccinating against HIV, as contemplated by the Applicants (Claim 174). The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. As it is well known in the art of HIV infection, there is no vaccine that is available as of today. In order for the Applicants to claim such a vaccine, they must show credible data, without undue experimentation, to overcome skepticism within those skilled in the art.
3. No claim is allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hankyel T. Park whose telephone number is 571-272-0907. The examiner can normally be reached on 6:00 a.m. -2:00 p.m. Mon-Fri.
